### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Response to Amendment***

The following restriction requirement has been made. The Examiner wishes to note that all the claims contain 101 issues that should be amended when the Applicant selects the Group he wishes to have examined.

### ***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-7 and 29, drawn to analysis by synthesis, classified in class 704, subclass 220.
  - II. Claims 8-11 and 32,33, drawn to excitation patterns, classified in class 704, subclass 223.
  - III. Claims 17,28,30, and 31, drawn to vector quantization, classified in class 704, subclass 222.
  - IV. Claims 16, drawn to voiced or unvoiced decisions, classified in class 704, subclass 214.
  - V. Claims 19-21,34, and 35, drawn to linear prediction, classified in class 704, subclass 219.
  - VI. Claims 22 and 23, drawn to compression, classified in class 704, subclass 500.
  - VII. Claim 24, drawn to codebooks, classified in class 704, subclass 225.
  - VIII. Claims 12-15 and 25-28, drawn to models, classified in class 704, subclass 265.

Art Unit: 2655

2. The inventions are distinct, each from the other because of the following reasons:

3. Inventions I and 7 are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions determining a codebook is different than coding REW and SEW models.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group VII, restriction for examination purposes as indicated is proper.

6. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

7. A telephone call was made to Robert Berliner on October 14, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 2655

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Susan McFadden whose telephone number is 703-308-6693. The examiner can normally be reached on Monday-Friday, 9:30-6:00.
